### **NEW! Ambassador Animals Program, Friends by Nature, at the Alvord Broadleaf Theater: 11:00 a.m., 2:30 p.m. daily**

Since opening the Alvord Broadleaf Theater last summer, several new animals have joined Woodland Park Zoo's Ambassador Animals. Who will be on stage today? Lucy the raccoon? Calvin the opossum? Blueberry the hornbill or Amarillo the nine-banded armadillo? Learn how Woodland Park Zoo works hard to create a great home for the animals here at the zoo and what visitors can do to help wildlife in their own backyard! Stop by the stage behind Zoomazium and meet some of the zoo's Friends by Nature.

### **NEW! Ambassador Animals Program, Earn Your Wings, at Wildlife Theater: 11:30 a.m., 2:00 p.m. daily, OPENS MAY 21**

A newcomer wants to join the raptor flight program. The problem? She doesn't fly! Visit the newly renovated Wildlife Theater (formerly raptor flight yard) for the new program, Earn Your Wings. Watch birds such as hawks, owls and vultures fly closely overhead while learning about their natural history and conservation status. As for the newcomer, watch as she runs right by—will she earn her wings?

### **Seasonal Molbak's Butterfly Garden and [NEW] Microsoft Pollinator Patio opens Memorial Day weekend: 9:30 a.m.–6:00 p.m. daily**

Take a walk among a variety of North American butterfly species in the zoo's immersive Molbak's Butterfly Garden exhibit. An arching tent structure encloses a landscape of approximately 3,000 square feet, and nearly 500 free-flying butterflies will represent at least 15 species native to North America. Woodland Park Zoo's seasonal Butterfly Garden emphasizes both the fragility and resilience of nature through the display of what many consider to be among the most beautiful of natural expressions: butterflies and flowers. Visitors will learn about the butterfly's life cycle while watching new butterflies emerge from their chrysalises before flying free in the garden.

Behind the Garden is the new Microsoft Pollinator Patio, where visitors can enjoy a beautiful stroll among pollinator-friendly plants while learning how to help pollinators in their own backyard. This garden is full of ideas and actions visitors can take on behalf of native pollinators such as hummingbirds, beetles, bees and flies. Before leaving, visitors can also take a sneak peek at the zoo's Silverspot Butterfly Lab, where zookeepers and teen volunteers hatch and raise endangered Oregon silverspot butterflies for release into protected wild habitat. Molbak's Butterfly Garden and Pollinator Patio are free with zoo admission.
