

TIGER STRIPES PUMPKIN CARVING

Tigers are big, powerful cats with lean, muscular bodies. Their stripes are like fingerprints in that no two tigers have the same pattern—which is perfect camouflage for the Asian jungle where they're from. Today, lots of tiger habitat is threatened by development for illegal palm oil plantations. Choosing foods and products made from sustainably-sourced palm oil helps to save their habitat: [zoo.org/palmoil](https://www.zoo.org/palmoil)

To carve your pumpkin:

1. Print out the template below (resize if needed).
Print more than one if you'd like to have the pattern continue around your entire pumpkin.
2. Tape the template onto your pumpkin.
3. Trace the design by poking small holes along the edges of the shapes using a pen or awl.
4. Cut along the edges of the shapes with a carving tool.
5. Share your pictures with us by tagging **#WoodlandParkZoo**, we can't wait to see your creations!
6. Hope your Halloween is tiger-rific!
