Salvia	<i>Salvia guaranitica</i>
Satin Flower	<i>Clarkia amoena</i>

NAME	SCIENTIFIC NAME
Seaside Daisy	<i>Erigeron glaucus</i>
Sea-thrift	<i>Armeria maritima</i>
Spanish needles	<i>Bidens ferulifolia</i>
Starry Cerastium	<i>Cerastium arvense</i>
Sunflower	<i>Helianthus</i>
Swan River Daisy	<i>Brachyscome angustifolia</i>
Sweet alyssum	<i>Lobularia maritima</i>
Tickseed 'Zagreb'	<i>Coreopsis verticillata</i>
Triternate Biscuit-root	<i>Lomatium triternatum</i>
Verbena	<i>Verbena</i>
Yarrow 'Moonshine'	<i>Achillea millefolium</i>
Zinnia	<i>Zinnia</i>

Join us to help pollinators in Washington state! Insects need advocates who are willing to make changes in their own landscapes, teach others to care for them, and spread the word to encourage pollinator-friendly practices across the state. The future is bright for pollinators when we work together.

This list has the current flowering plants in the Capitol Campus pollinator garden. Check with your local garden store to find these varieties or other great pollinator picks that would work for your garden space.

This interpretive garden is designed by
Woodland Park Zoo in partnership with:
