## Our Camps

Woodland Park Zoo's Summer Camps inspire children to make conservation a priority in their lives by advancing their STEAM skills, building connections to nature, and exploring the animals of our world.

Camps are divided into tiers by camper age. Each tier offers developmentally appropriate curricula that support Next Generation Science Standards (NGSS) with themes that are thought-provoking, educational, and fun.

Woodland Park Zoo's camp programs are structured as weekly sessions with **two different alternating curricula offered for each age tier.**
