

CANDY WITH A CAUSE

Wildlife-Friendly Shopping List

Get Smart about Sustainable Palm Oil

Your holiday candy binge can be a sweet deal for wildlife when you use this shopping guide. Orangutans, tigers, gorillas and their forests are threatened by non-sustainable palm oil production in Indonesia, Malaysia, Africa and South America. The companies listed below are members of the Roundtable on Sustainable Palm Oil (RSPO) and are committed to using certified sustainable palm oil. Please support the companies that are doing their best to make a difference for wildlife.
